The KardGard Advantage

Bradigan's exclusively offers high quality **24/SEVEN Advanced Motor Fuels**. Bradigan's introduces an extended protection high performance fuel additive to all three grades of its gasolines. The enhanced products guarantee customers increased mileage of approximately 5%. Mileage depends on driving habits, road conditions and ambient temperature.

For our diesel fuel customers, we upgrade typical No.2 Low Sulfur Diesel Fuel to a **High Quality Premium Diesel Fuel**. Documented in both fleet and laboratory tests to significantly improve engine performance, increase fuel economy, and reduce exhaust emissions, Bradigan's high quality Premium Diesel Fuel meets National Weights and Measures standards for No.2 Stability & Lubricity. You need a clean fuel system to maintain an efficient engine. Bradigan's High Quality Premium Diesel Fuel will clean-up dirty fuel injectors, making them like new. Just as importantly, it will maintain fuel injectors and fuel systems, keeping them like new. When temperatures drop to sub freezing, Bradigan's High Quality Premium Diesel Fuel will not gel. It is protected to approximately -20 degrees Cold Filter Plug Point.

Economy

KardGard's motor fuels are specially treated with an extended protection high performance fuel additive that boosts mileage. At today's prices, increased mileage is very important.
